

# Critical Thinking Skills That Disarm Evolutionists

Wednesday January 4<sup>th</sup> at 6:30 pm

Science is the method through which theories are tested and re-tested. However, today evolution is guarded against such scrutiny and taught uncritically in our public schools. This pervasive defense of naturalism has led students to view Darwinism as the only accepted explanation for the diversity of life on Earth. This presentation will encourage critical thinking of scientific interpretations, and examine the bedrock evidence for the theory of evolution.

- The critical thinking method
- Three critical thinking questions

- A power question
- Words have meaning: fuzzy words and magic words
- Red-flag words
- Why the fossil record refutes evolutionism
- If evolution is true what should we observe?

About the Speaker: Mike Riddle is an international speaker and educator on Christian education and apologetics with Creation Training Initiative. He is also an adjunct speaker for Answers in Genesis. Mike holds a degree in mathematics and a graduate degree in education and has been involved in creation ministry for more than thirty years. Prior to getting involved in creation ministry, Mike was a captain in the U.S. Marines and a national champion in track and field.

Join us the 1st Wednesday each month for multimedia presentations by educators, scientists, and authors that are dedicated to defending the Bible against naturalism. The events are free and open to the public and suitable for ages 11 up.
